

Black, White, on Brown Art Project:

Goal: We are learning how to design using MONOCHROMATIC COLORS. In this case, just black and white (neutral colors) on brown paper.

You have three ways to design your composition. They are shown above:

1. Draw a circle first, and place rectangles around the circle. Turn them into skyscrapers, office or apartment buildings.
 2. Drawing trees, all lining up across the bottom, of different sizes and shapes.
 3. Gears going across the paper.
- Start with a pencil drawing.
 - Then do the black line work.
 - Save the white highlighting for last.
